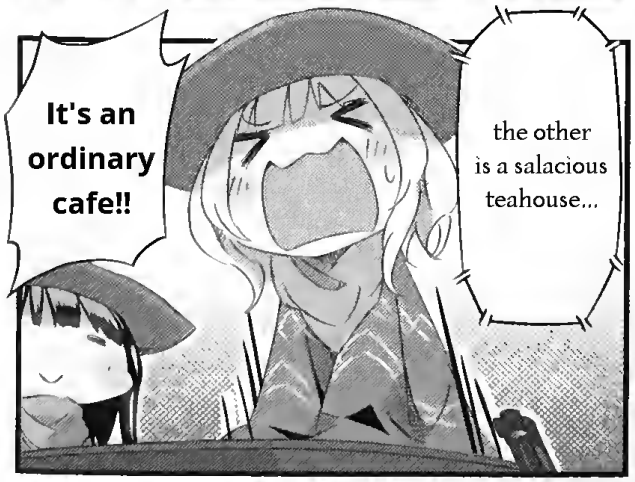
Suddenly a voice from above!?
Have to keep up with the other two competing restaurants somehow, other than the taste of coffee!!



Maybe keeping the western cafe theme might actually be more profitable?
But half of customers brought their own costumes.

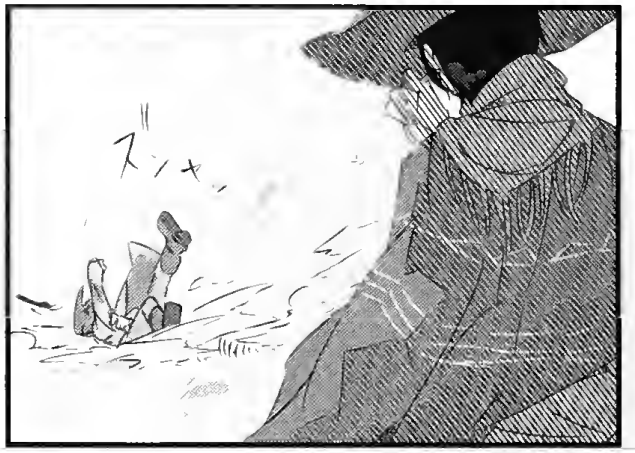
Shootout in the prairie?

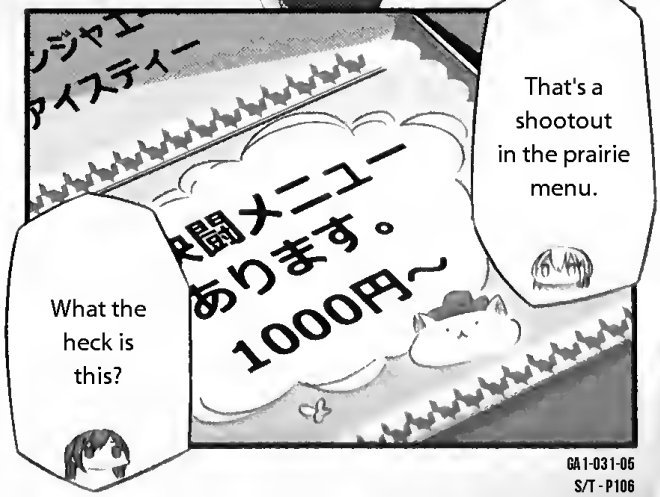
Hey, you!!
I told you not to come here!!

The customers have started to squabble...
What to do!?
Are you nuts!?
So what!?



Rize, wait!
Leave this to me.

More like, shootout by the water fountain.



That's a shootout in the prairie menu.
What the heck is this?
